

New feature in our system that makes importing student fee data **fast, accurate, and easy**. Instead of entering each student's fees one by one, you can now use a simple **Excel template** to upload all fees at once.

How it works:

1. **Download the template:** The system provides a ready-to-use Excel file with columns for student details, fee category, term, and amount.

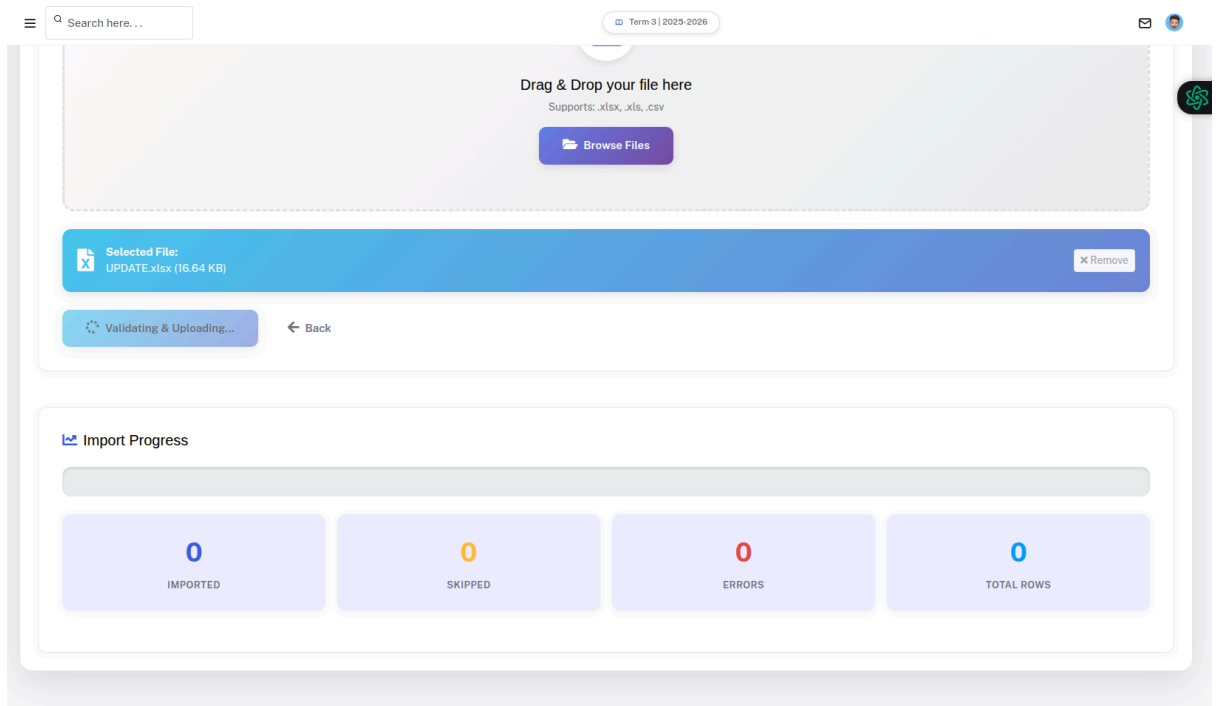

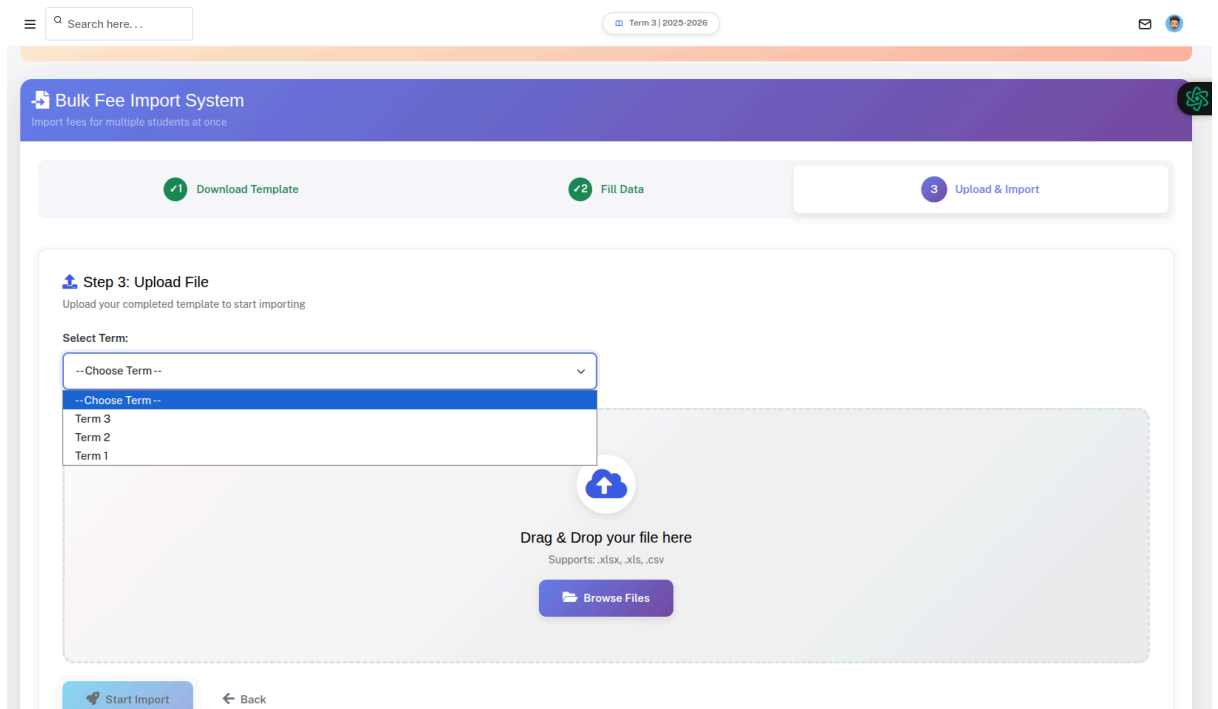

The screenshot shows the 'Bulk Fee Import System' interface. At the top, there's a search bar and a 'Term 3 | 2025-2026' selector. Below this is a 'Quick Actions' bar with 'Get Template' and 'Upload File Directly' buttons. The main section is titled 'Bulk Fee Import System' with a subtitle 'Import fees for multiple students at once'. A progress bar shows three steps: '1 Download Template', '2 Fill Data', and '3 Upload & Import'. The current step is 'Step 1: Download Template', which includes a dropdown for 'Select Grade Section' (currently set to 'Grade1') and a 'Download Template' button. Below this, a 'Template Contents' box lists: 'All active students in the selected grade', 'Pre-filled admission numbers and names', 'Fee category reference sheet with codes', and 'Step-by-step instructions for filling data'.

2. **Fill in the data:** Enter all students' fee details in the template.

The screenshot shows an Excel spreadsheet titled 'Untitled spreadsheet'. The table has columns for 'admission_number', 'student_name', 'fee_category_code', 'fee_category_name', 'amount', 'is_recurring', and 'description'. The data is as follows:

	A	B	C	D	E	F	G	H	I	J	K	L	M
	admission_number	student_name	fee_category_code	fee_category_name	amount	is_recurring	description						
1													
2	MFS/001/25	Dudi Maina	Tuition	tuition	4500	YES							
3	MFS/001/25	Dudi Maina	test	test	5000	YES							
4	MFS/003/25	Darius Thornton	Tuition	tuition	4500	YES							
5	MFS/005/25	Channings Beasley	Tuition	tuition	4500	YES							
6	MFS/009/25	Test 1	Tuition	tuition	4500	YES							
7													
8													
9													
10													
11													

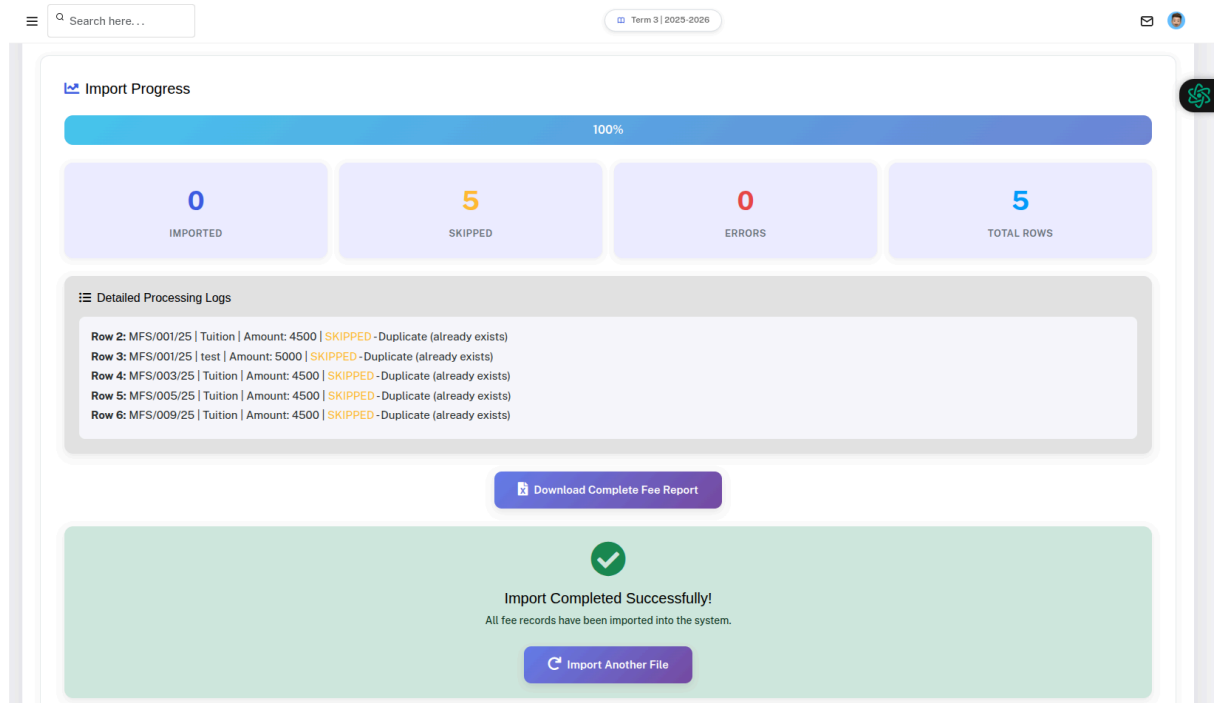

3. **Upload the template:** Upload the completed Excel file to the system.

4. **Automatic processing:** The system will:

- Add new fee lines
- Skip duplicates

- Generate a report of what was imported, skipped, or if there were errors
5. **Final report & download:** Once processed, you can download a **final Excel report** for your records.

Benefits:

- **Saves time:** No need to enter fees manually for each student.
- **Reduces errors:** System checks for duplicates and ensures data is consistent.
- **Trackable:** You get a clear report of imported, skipped, or erroneous entries.
