

QUOTATION

FROM: Liorix Digital Solutions | Nairobi, Kenya | +254 115 429 140 | info@liorixdigital.com

To: [Client Name] [Client Company Name] [Client Address/Email]

Date: [05/12/25] **Quote Reference:** [Q-2025-12] **Valid Until:** [05/10/26]

1. Executive Summary

We are pleased to submit this proposal for the design and development of an integrated **Car Hire Digital Ecosystem**. This solution is engineered to solve two critical business challenges simultaneously: increasing customer acquisition through a high-performance **Public Website** and streamlining business operations through a secure **Management System**.

2. Project Scope

Phase A: Public Digital Showroom (The Website)

- **Role:** To attract new customers and rank high on Google.
- **Fleet Showcase:** Professional display of vehicles with high-resolution images, specifications, and pricing tiers.
- **Google Visibility:** Setup of local search features so customers find you easily when searching "Car Hire in [City]."
- **Direct Engagement:** Integration of WhatsApp floating widgets for instant customer inquiries.

Phase B: Secure Business Portal (The System)

- **Role:** To manage bookings, payments, and vehicle security.
 - **Client Self-Service:** A secure login area where clients can book cars, upload documents, and view their history without calling your office.
 - **Smart ID Verification:**
 - Secure upload of Identification Documents (ID/Passport).
 - **Automated Expiry Check:** The system automatically flags if a driver's license is expired.
 - **Data Privacy:** Uses secure, private processing to protect client data (compliant with Kenyan Data Laws).
 - **Automated Logistics:** A smart calendar that automatically blocks dates for bookings and cleaning times to prevent double-booking.
 - **Financials:** Automated invoicing and integration with M-PESA for seamless payments.
-

3. Investment Breakdown

4. Annual Infrastructure & Support (Recurring)

To ensure your business data is safe, secure, and always online, we provide a mandatory annual infrastructure package.

5. Implementation Timeline (6 Weeks)

- **Week 1:** Planning and Design of the user interface.
 - **Week 2:** Development of the Public Website.
 - **Week 3:** Engineering the Booking System logic.
 - **Week 4:** Building the Secure Client Portal.
 - **Week 5:** Connecting Payments (M-PESA) and SMS Notifications.
 - **Week 6:** Final Security Testing and Staff Training.
-

6. Terms & Conditions

1. **Payment Schedule:**
 - **50% Deposit (KES 35,000)** is required to commence work.
 - **50% Balance (KES 35,000)** is due upon completion and before the final handover of system access.
2. **Infrastructure:** The Annual Infrastructure fee (KES 20,000) is billed annually in advance to cover server costs.
3. **Data Privacy:** The system is designed with strict privacy controls to ensure client documents are stored securely in compliance with the Data Protection Act.

4. **Ownership:** Upon full payment, [Client Company Name] retains full ownership of the system and data.
-
